

# Title

Lab number:  
Student's Name  
ELE213: Singal processing  
(Date you submit report)

## 1. Introduction

The purpose of this experiment was...

<Use scientific language. No "I'm" or "We're" in a lab report. Replace them with "this student" and "our group">

## 2. Theory and Methods

<Provide background theory, with any formulas you may use in this section>

<Describe the steps for building up the experiments. Include any relevant diagrams (LabVIEW VI)>

## 3. Experiment Results

<Show all experiment results in this section, including e.g., screenshots of outputs graphs and figures>

< Interpret and explain the reason for your observations. Analyze and see if they coincide with the theories. >
